BIOMETRICS BULLETIN

Contents of Volume II

ABSTRACTS 34, 58, 75
EDITORIALS 18, 92, 127
NEWS AND NOTES 19, 38, 59, 79, 98, 125
PROGRAMS 92
QUERIES 14, 36, 55, 73, 95, 120

ARTICLES and ABSTRACTS

ANDERSON, R. L., Missing-Plot Techniques 41
Abstract #24 58
BATEN, WILLIAM D., Analysis of Scores from Smelling Tests 11
BATEN, W. D., and G. M. TROUT, A Critical Study of the Summation-of-difference-in-rank Method of Determining Proficiency in Judging Dairy Products 67
BERKSON, JOSEPH, Limitations of the Application of Fourfold Table Analysis to Hospital Data 47
BLISS, CHESTER I., *Abstract #17* 34
COLE, LAMONT C., *Abstract #27* 76
COMIN, DONALD and WESLEY P. JUDKINS, *Abstract #28* 76
CRUMP, S. LEE, The Estimation of Variance Components in Analysis of Variance 7
DELURY, DANIEL B., *Abstract #20* 35
FEDERER, W. T., and G. F. SPRAGUE, *Abstract #30* 77
FINNEY, D. J., Field Sampling for the Estimation of Wireworm Populations 1
Standard Errors of Yields Adjusted for Regression on an Independent Measurement 53
A Note on "Missing-Plot Techniques" 94
GOULDEN, C. H., and ALLAN E. PAULL, Statistical Methods in Cereal Chemistry 26
GOWEN, JOHN W., *Abstract #33* 78
HABER, E. S., see George W. Snedecor
HARSHBARGER, BOYD, Preliminary Report on the Rectangular Lattices 115
Abstract #21 35
HAYDEN, FRANCES L., see B. L. WADE
HAZEL, L. N., The Covariance Analysis of Multiple Classification Tables with Unequal Subclass Numbers 21
HEINZE, P. H., see B. L. WADE
HOGAN, A. G., see M. E. MUHRER
HOMEYER, PAUL G., *Abstract #16* 34
JELLINEK, E. M., Clinical Tests on Comparative Effectiveness of Analgesic Drugs 87
JONES, D. F., *Abstract #26* 75
JUDKINS, WESLEY P., see DONALD COMIN
LE CLERG, E. L., In Memoriam, Forrest Rhinehart Immer 31
MOOD, A. M., *Abstract #19* 35
MUHRER, M. E., and A. G. HOGAN, *Abstract #25* 58
PATTERSON, R. E., *Abstract #18* 35
PAULL, ALLAN E., see C. H. GOULDEN
PRICE, W. C., Measurement of Virus Activity in Plants 81
Abstract #15 34
RIGNEY, J. A., *Abstract #31* 77
SATTERTHWAITE, F. E., An Approximate Distribution of Estimates of Variance Components 110
SIEMENS, G. J., see H. H. STRANDSKOV
SNEDECOR, GEORGE W., and E. S. HABER, Statistical Methods for an Incomplete Experiment on a Perennial Crop 61
Abstract #29 77
SPRAGUE, G. F., see W. T. FEDERER
Statistics at the University of Wisconsin 70
STRANDSKOV, HERLUF H., and G. J. SIEMENS, *Abstract #22* 58
TROUT, G. M., see W. D. BATEN
WADE, B. L., FRANCES L. HAYDEN and P. H. HEINZE, *Abstract #32* 78
WADLEY, F. M., Incomplete-block Design Adapted to Paired Tests of Mosquito Repellents 30
Abstract #23 58
WINSOR, CHARLES P., Which Regression? 101
Work in Statistics at George Washington University 32

INDEX

Adjusted means, 15, 31, 35, 53, 78, 118
Analgesia, 87
Analysis of scores, 11, 67
Analysis of variance, 7, 14, 24, 26, 31, 35, 36, 37, 38, 41, 56, 58, 61, 84, 86, 87, 89, 110, 118, 123
Animal breeding, 21, 58
Association, 47
Bias, 1, 3, 18, 22, 36, 41, 44, 54
Binomial, 58, 97
Biological assay, 34, 83, 96, 109
Bivariate distributions, 97, 101
Cereal chemistry, 26
Check plot, 30, 36, 57
Chi-square, 17, 37, 47, 74, 95
Clinical tests, 87
Coefficient of variation, 3
Comparisons, 113
Component of variation, 7, 15, 28, 37
Concomitant observations, 28, 53
Conclusions, 15, 16, 26, 29, 38, 48, 63, 82, 90, 94, 95
Confidence intervals, 104, 120
Confidence limits, 105, 108, 113, 120
Confounding, 43
Consultation, 33, 71
Contagious distribution, 76
Contingency, 17
Continuity, Yates' correction, 95
Correlation, 27, 47, 56, 67, 101
Correlation ratio, 56
Course of action, 10, 11, 111
Courses in statistics, 32, 72
Covariance, 15, 21, 27, 43, 53, 78
Curvilinear regression, 25, 28, 61, 62
Degrees of freedom, 37, 85, 111, 120, 121
Dependent variable, 15
Design of experiments, 18, 26, 29, 30, 35, 36, 57, 58, 77, 83, 86, 87, 95, 109, 113, 115, 120, 123
Dilution series, 82
Disproportionate subclass numbers, 21, 35
Distribution, 12, 68, 69, 73, 76, 82, 88, 97, 111
Efficiency, 2, 4, 10, 23, 29, 31, 36, 54, 57, 74, 78, 119
Entomology, 1, 9, 30, 57
Error regression, 15, 27, 43, 53
Error term, 24, 27, 43, 62
Estimation, 3, 7, 22, 41
Experimental design, see Design
Experimental error, 31
Factorial design, 26, 54
Fiducial limits, 4, 9, 120
Field sampling, 1
Fitting constants, 10, 22, 43, 94
Fitting regression line, 28, 61, 101
Fourfold table, 47, 95
F test, 14, 16, 27, 56, 58, 62, 74, 113
  variances correlated, 55
Future action, 10, 11, 111
Galton's quincunx, 97
Genetics, 9, 10, 21, 75, 77, 78
Goodness of fit, 37
Growth equation, 37
Half-leaf method, 83
Heredity, 9, 21, 75, 78
Homogeneity of variances, 74
Hypothesis, 4, 7, 16, 17, 18, 25, 56, 68
Incomplete blocks, 30, 36, 42, 55, 78, 83, 115
Incomplete experiment, 61
Independent variable, 15, 109
Index of association, 47
Inference, 15, 16
Information, 29, 54, 122
Interaction, 24, 26, 43, 62, 77
Interblock information, 31, 36, 42, 55, 58, 115
Intraclass correlation, 57
Judgment, 12, 48, 67, 76
Latin square, 35, 41, 54, 83
Lattice design, 35, 36, 42, 55, 78, 115
Least squares, 22, 37, 43, 94
Logic of test, 15, 29, 38
Mathematical model, 7, 74
Mean square, 37, 38
Median, 74
Medicine, 47
Missing plots, 35, 41, 94
Models, 97
Multinomial distribution, 12, 13
Multiple classification, 21
Nonlinear regression, 25, 28, 61, 62
Normal distribution, 73, 124
Null hypothesis, 16, 17, 18, 38, 56, 68
Number of observations, 120, 121
Observational classification, 123
Orthogonal functions, 28, 29, 61
Orthogonal square lattice, 42, 58
Paired tests, 30, 38
Parabola, 63
Percentile, 74
Plant growth, 37
Plant pathology, 81
Poisson distribution, 2, 82, 97
Polynomial regression, 28, 29
Populations, 1, 76
Power of test, 96
Precision, 89
Prediction, 17, 101
Product-moment correlation, 47
Pure variance, 7, 15, 27, 37, 110
Randomization, 18, 29
Randomized blocks, 7, 14, 15, 16, 36, 41, 54, 61, 78, 115

Range, 16
Ranks, 12, 38, 67, 76
Rectangular lattice, 35, 115
Regression, 15, 23, 25, 27, 37, 63, 61, 84, 101
Regression integral, 29
Rejection of data, 41, 95
Replication, 18, 116
Research in statistical methods, 33
Robertson's equation, 37
Sampling, 1, 10, 15, 27, 77
  systematic, 5
Sampling error, 2, 74, 110
Scores, 11, 68, 76
Sensitivity of test, 95
Service, 72
Sex ratios, 58
Significance, 31, 95
Significantly small F, 56
Skewness, 68, 73
Source of variation, 7, 14, 27, 30, 35
Split plot, 43
Spurious correlation, 50
Square-root transformation, 74
Standard error, 4, 31, 36, 41, 46, 53, 74, 85, 96, 118
Standard variety, 30, 36
T test, 13, 16, 27, 69, 113
Teaching of statistics, 32, 70
Test of normality, 96
Test of significance, 13, 15, 18, 24, 29, 38, 44, 55, 56, 62, 74, 84, 90, 96, 113, 121
Transformation, 74
U-shaped distribution, 88
Variance, complex, 110
  pure, 7, 15, 27, 37, 110
Virus, 81
Weights, 117
Yates' correction, 95
Youden square, 36, 83
